Dear Parents/Guardians,

Primary 2 Holistic Development Plan

'Learn For Life' – Preparing Our Students to Excel Beyond Exam Results

Building on efforts to move away from an over-emphasis on academic results, the Ministry of Education (MOE) has adjusted school-based assessment structures at the Primary and Secondary levels since 2019. To meet the challenges of an increasingly complex world, our students need to be lifelong learners. To nurture lifelong learners, we will help our students discover more joy and develop stronger intrinsic motivation in learning. The adjustments to reduce the school-based assessment load and perceived examination stakes aim to free up more time and space in schools to strengthen holistic development, self-discovery, and engaged learning. These changes will provide more opportunities for student-centred teaching and learning approaches, laying the groundwork for nurturing lifelong learning attitudes and skills.

The key changes for Primary 1 – Primary 2 students are as follows:

a) Removing of School-Based Assessments

All weighted assessments and examinations for Primary 1 and Primary 2 students were removed. Teachers will continue to leverage assessments to check for students' understanding and provide timely feedback to improve learning, but they will not count towards the overall mark or grade.

b) Refreshing the Holistic Development Profile

The Holistic Development Profile (HDP), commonly known as the 'report book', has also been adjusted at all levels to better support a student's learning progress. The HDP no longer includes certain academic indicators such as class and level positions of the students. This change is intended to enable each student to focus on their learning progress and discourage excessive peer comparisons. With the removal of weighted assessments at Primary 1 and Primary 2, MOE has guided schools to use qualitative descriptors to report students' learning at these levels. These qualitative descriptors of learning outcomes will be used to report students' progress and learning in all subjects. For example, a qualitative descriptor of an English learning outcome is "Accomplished", and for Music, "Competent", etc. These learning outcomes will be shared with parents through the HDP at the end of each semester.

c) Revising the Criteria of Edusave Academic Awards for Lower Primary

With the removal of all weighted assessments at Primary 1 and Primary 2, MOE has adjusted the academic criteria for awarding the Edusave Merit Bursary (EMB) to Primary 1 and Primary 2 students and the Edusave Good Progress Award (GPA) to Primary 2 and Primary 3 students. The selection of the EMB and GPA at these levels will no longer be based on academic scores, given that weighted assessments in Primary 1 and Primary 2 will be removed. Instead, the eligibility criteria for Primary 1 and Primary 2 EMB and Primary 2 and Primary 3 GPA will be adjusted to recognise positive learning orientations such as diligence, curiosity, collaboration, and enthusiasm in daily lessons and learning activities. To find out more about the EMB and GPA awards, you may visit the MOE website (<https://www.moe.gov.sg/financial-matters/awards-scholarships/edusave-awards>) for more details.

Please find below the Primary 2 Holistic Development Plan for 2026. In this document, you will find information on the various modes of class activities and individual tasks that will be carried out under non-timed conditions during curriculum time. The objective is to allow our teachers to assess how well their students have grasped the learning outcomes to provide qualitative feedback for improvement.

As **all the tasks are non-weighted**, there will not be a standardised day for the level to complete the task. Teachers may carry out the tasks on any day in the stipulated term, taking into consideration the class schedule for other learning activities such as learning journeys, spellings and school celebrations. Parents are not required to prepare our students for these tasks. It is our hope that students will gradually develop intrinsic motivation for learning as they focus on their own learning pace and seek improvement from the teachers' feedback.

Ongoing formative assessments such as peer evaluations, self-checklists, rubrics, worksheets, homework and class discussions will continue to support our teachers in providing qualitative feedback through the Holistic Development Profile (HDP) at the start of Term 3 and the end of Term 4.

The holistic development plan for the respective subjects for 2026 is as follows:

Primary 3 Higher Mother Tongue Language (HMTL)

Higher Mother Tongue (HMT) will be offered to selected Primary 3 students in 2027. The purpose of Primary 3 HMTL is to enthuse students who demonstrate the ability and interest to pursue Mother Tongue Languages (MTL) at a deeper level.

Selection will be done based on:

1. Proficiency in oral skills
2. Strong foundation for literary skills
3. Learning dispositions and motivation in learning MTL
4. Performance in regular writing tasks and work assignments (Primary 2)

Selected students will be notified via Parents Gateway in Term 4.

Please feel free to email your child's MTL teacher should you have further queries pertaining to the Primary 3 HMT curriculum.

Warmest regards,
Ms Iris See
Year Head, Primary 1 & Primary 2
