Mr Chua Chye Hock

Dear Parent,

An outdoor adventure 3D2N residential camp will be organized for our Primary 5 students from **19 to 21 Jan 2026** at **HomeTeam NS Bukit Batok Adventure Centre**. This residential camp provides an authentic outdoor education experience for our students. The rich learning environment of the outdoors affords our students with opportunities to learn and apply outdoor skills such as navigation, orienteering and build their competency in assessing and managing risks.

Through collaborating with their peers to achieve common group goals, our students will be able to:

1. Experience self-discovery through stepping out of their comfort zone.
2. Appreciate diversity in perspectives and experiences.
3. Demonstrate responsible decision-making towards self, others, environment, and community.

We look forward to our students' display of leadership and initiative through team-building and problem-solving activities. We hope that our students will embrace challenges and appreciate new learning opportunities. We strive to foster camaraderie early in the year through the planned activities with their classmates and peers. We are confident that this will be an experience that our students will hold close to their heart in their schooling years.

Please take some time to read through the information below. You may also watch 2 videos by clicking on the Youtube links below to have a glimpse of the camp that our students are going to experience. Some of the activities may differ in view of the affordance of the campsite and facilities.
